1. You are interested in finding records containing images regarding the **Barramundi fish** found in the Indo-West Pacific.
 - In the **Quick Search** tab, enter **Barramundi** in the query box.
 - Click **Search**.
 - Note the difference in the number of results found on the **Published Works** tab and the **Tables & Figures** tab. Click the number of results on the **Tables & Figures tab** to view the individual records for each of the images found in the resulting articles.
 - Find the record for *“Figure 1. Location of fish tagging and recapture sites within the Fitzroy River estuary”* and click on the title or image to open the full record allowing you to also view a larger version of the image.

2. You want to find records containing **map images** of **Salmon migration** patterns.
 - In the **Advanced Search** tab, enter **Salmon or Salmo salar** in the first two query boxes on the first row, select the **AND** Boolean operator from the drop-down menu to the left of the second row, and enter **migrat*** in the first query box of the second row.
 - In the **More Search Options** section of the search page, select **Map** from the **Category** limit.
 - Click **Search**.
 - Find the record for *“Figure 16. A seasonal **migration** model of Japanese chum **salmon** estimated by genetic stock identification (Urawa, 2004)”* and click on the title or image to open the full record allowing you to also view a larger version on the image.

3. You need to find **descriptors** to best describe and search for images related to **global warming**.
 - In the **Search Tools** tab, select the **Indexes** tab.
 - Choose the **Object Descriptors Index**.
 - Enter **global warm*** in the query box.
 - Click **Go**.
 - **Select terms** of interest from the results list (click Next to view more relevant terms), choose to combine the terms with the **AND** or **OR** Boolean operators in the search tool on the left of the page, and click **Search** to view results that contain the selected terms as object descriptors.
